Why Kids
Love Nature?
为什么选择“孩子
爱自然”？

Our world is advancing more rapidly than ever before, technologically, economically and socially. No one can predict the future, however we all recognise we are about to go through unprecedented changes to everyday life. Who's to say that the jobs our children are being prepared for now will even be around when they're old enough to do them.

无论是科学技术还是社会生活，我们周围的世界正以前所未有的速度发展变化。新的工种不断涌现，旧的工种没落消亡。当我们的孩子长成人走向社会的时候，他们在学校里学习的知识技能，又有多少能派上用场？没有人能给出确切的回答。

With the rapid development of the modern world, children's vital connection to nature is being lost. This is to the detriment of their health and wellbeing. We want the modern world to work in harmony with nature not separately from it. We do not think it is a choice between one or other.

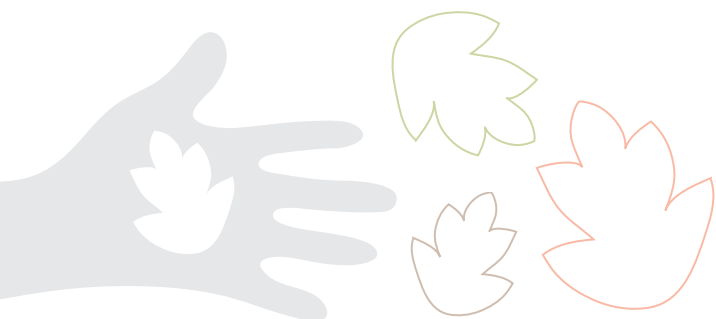

在奔向现代化的路上，我们的孩子被逐渐剥夺了与大自然亲密接触的机会，与自然母亲渐行渐远。这种经验与认知的缺失，对孩子的身心健康有害无益。在我们看来，现代社会与大自然之间并不是对立的关系。人离不开自然，应该寻求和谐平衡的发展。

This is why we created Kids Love Nature. We feel passionately that today, an evolving, integrated approach to early years is needed to make the best of the future for everyone. Our approach aligns the needs of humanity with the needs of the environment. We want to embrace a technological future and meet it in harmony with nature.

我们深信，要迎来人与自然和谐发展的美好明天，幼儿园需要用一种融合创新的教育方式来教今天的孩子。在这一信念的推动下，我们创立了“孩子爱自然”幼儿园，把人类发展与环境保护的需要相结合，在此基础上设计课程与教学活动。

At this critical stage of childhood it's our mission to make every day extraordinary for all children.

幼儿期是人生发展的关键时期。在“孩子爱自然”幼儿园，我们的使命是让每一位孩子的每一天都过的精彩非凡。

Kids Love Nature Approach

“孩子爱自然” 的理念与方法

The Kids Love Nature Approach, influenced by Forest School, Montessori and Reggio Emilia philosophies, is informed by our deep understanding of human development and learning.

在“孩子爱自然” 幼儿园，我们在深刻理解人类学习与发展规律的基础上，吸收森林学校、蒙台梭利和瑞吉欧·艾米里亚等学前教育法的精髓，形成了一套特色鲜明的教学方法。

We have created synergy between indoor and outdoor learning experiences. We have all the elements of forest school education combined with beautiful indoor classrooms and a dynamic curriculum.

我们将室内学习与户外学习有机结合，不仅拥有森林学校的所有元素，还有美丽的教室和充满活力的课程。

Our focus is on supporting the child to develop all vital core skills for school, whilst developing a love and respect of nature. These include;

- concentration
- independence
- confidence
- creativity
- social awareness
- emotional literacy
- excellent communication
- connection to nature

在培养目标上，我们不仅关注孩子核心学业能力的发展，也着重培养孩子对大自然的尊重与热爱，具体能力目标包括：

- 专注力
- 独立性
- 自信心
- 创造力
- 社会意识
- 情感素养
- 出色的沟通能力
- 感知自然的能力

The result is a kindergarten where each child has their unique intelligence catered to, and where they learn what it means to be a valuable citizen.

在我们的不懈努力下，“孩子爱自然”幼儿园可以为每一位孩子提供优质的个性化教育，在关注孩子才能特点的同时，帮助孩子成长为对社会有价值的公民。

Our kindergartens are gaining international interest with study visits from USA and Canada. Three UK universities are working with us to research our approach.

我们园所不仅在英国国内广受好评，也受到海外教育界的关注，包括来自美国和加拿大的学习访问。目前有三所英国大学与我们开展合作，对“孩子爱自然”的理念和方法进行研究。

Three of our kindergartens are located in protected Country Parks and National Parks (one a UNESCO World Heritage Site) with direct access to nature. Our latest kindergarten is within a Zoological Park (Marwell Wildlife) with direct access to the zoo.

为了给孩子创造更多亲近自然的机会，幼儿园在选址上非常用心。我们有三间园所设在英国的自然保护区和国家公园内（包括一处被联合国教科文组织收入《世界遗产名录》的公园），一间新开的园所设在动物园内（英国马尔维尔野生动物园）。

——凯西·伯克特-圣罗朗，教育学硕士，美国辛辛那提大学兼职助理教授

"The practice that I have observed at a Kids Love Nature kindergarten gives young children a rare opportunity to explore a wide range of rich indoor and outdoor environments at their own pace, following their own interests and with the support of knowledgeable, empathetic practitioners. Children run, climb, dig, observe, splash, build and grow in natural spaces, while learning about their world. It is a pleasure to see them in action".

Dr. Jane Payler - Professor of Education (Early Years)
Faculty of Wellbeing, Education and Language Studies, The Open
University, School of Education, UK

据我所见，“孩子爱自然”幼儿园为幼儿提供了一个难得的机会，让他们在知识渊博、富有同情心的教育工作者的支持下，按照自己的兴趣和节奏，对室内和室外环境进行广泛探索。孩子们在自然空间中跑、爬、挖洞、观察、玩水、搭建和成长，在这个过程中认识、学习周围的世界。看着孩子们忙忙碌碌的身影，我感到由衷的高兴。

——简·佩勒博士，教育学教授（学前教育方向），英国开放大学教育学院健康、教育与语言研究系
